Patient Medical Report & Prescription

Patient Information

Patient Name	Nurdaulet	**Report ID**	SH-2026-0457
Age / Gender	21 / Male	**Report Date**	05 Nov 2026
Phone	7766378394	**Blood Group**	B+
Email	patient@stayhealthy.com	**Allergies**	None known

Consultation Details

Doctor	Dr. Elizabeth Clark	**Speciality**	General Physician
Consultation	Instant (online)	**Date / Time**	05 Nov 2026, 10:00 AM

Clinical Summary

Chief Complaint	Sore throat, mild fever (37.8 °C) and fatigue for 3 days
Vital Signs	BP 118/76 mmHg · Pulse 82 bpm · SpO2 98% · Weight 68 kg
Diagnosis	Acute viral pharyngitis (upper respiratory tract infection)

Prescription

#	Medicine	Dosage	Frequency	Duration
1	Paracetamol 500 mg	1 tablet	Every 8 hours if fever > 38 °C	3 days
2	Ibuprofen 200 mg	1 tablet	Twice a day after meals	5 days
3	Throat lozenges	1 lozenge	Every 4 hours as needed	5 days
4	Vitamin C 500 mg	1 tablet	Once a day	7 days

Advice

Drink plenty of warm fluids, rest for 2–3 days and gargle with warm salt water. Return or book a follow-up if the fever lasts more than 3 days or breathing becomes difficult.

Follow-up: 12 Nov 2026 (online consultation)
